# History of Economic Ideas

**Randall Holcombe**

**Fall 2018**

OFFICE HOURS: Monday and Wednesday 1:30 - 2:30, or by appointment.  
Office location: 162 Bellamy Building. E-mail address: [holcombe@fsu.edu](mailto:holcombe@fsu.edu)  
Website: [www.RandallHolcombe.com](http://www.RandallHolcombe.com) (has syllabus and test questions).  
I will not be posting material on Canvas.

TEXTBOOK: Harry Landreth and David C. Collander, *History of Economic Thought*, 4th ed. Also, see <http://cepa.newschool.edu/het/> for original writings. An earlier edition would be almost as good as the current edition.

COURSE OBJECTIVES: (1) To understand how economics has developed over the past 300 years from a branch of moral philosophy into an independent discipline. (2) To explore the influence of economic conditions of the times on the development of economic ideas, and the influence of economic ideas on economic policy. (3) To use the knowledge of the history of economic ideas to better understand contemporary economics. (4) To develop writing and critical thinking skills.

NO CLASS: We will not have class on October 1, 3, 12, and November 19. This gives you a week without class meetings to work on your paper.

GRADING: Final grades will be based on a mid-term examination worth 30 percent of your grade, a paper worth 35 percent of your grade, and a final examination worth 35 percent of your grade. The examinations will be composed of essay and short-answer questions. The mid-term will be on Wednesday, October 24, and the final examination will be on the regularly-scheduled final examination period for the course, which is December 10 from 5:30-7:30pm. Your papers are due October 8, at the end of the class period. Papers handed in after the end of the class period are late. One letter grade will be deducted from your paper grade for each day it is handed in late. Hard copies of your paper must be handed in. Electronic submission (such as via e-mail) is not acceptable.

PAPERS: Your paper should be about the influence of an economist on the development of economic ideas. You should choose an economist whose major contributions to economics came before 1950. You may discuss the life and times of the economist you select, and should focus on how that economist influenced the people at the time the economist worked, and how the economist's work has influenced later ideas. Papers should be typed, double-spaced, and about 20 pages in length. Your paper must reference all sources you use, and must place in quotation marks any material you copy verbatim from another source. List all web addresses for internet sources, and list the origin of any print sources you use that are not available in the FSU libraries. You should refer to the original writings of the person or people you choose as subjects. Much original material can be found at <http://cepa.newschool.edu/het/>.

You must include a list of references at the end of your paper. List only the references you actually used. If you quoted or cited one source as used in another, list the source you actually used in your list of references. All references must include an explanation of where you obtained the reference. For references from Strozier library, include the call number. For references from the internet, include the complete URL, so I can locate it from my computer. Other references must include an explanation of how you obtained them. Occasionally I check references, and if you cannot verify where you obtained the references in your paper, I will assign your paper a

grade of zero. I also check some papers to see if they were plagiarized from internet or other sources. Copying any source without citation is academic dishonesty.

**PROPOSALS:** You must hand in a proposal of one or two pages on September 5 briefly explaining your topic. The proposals will not be graded separately, but will be included in your paper's grade. I will hand back your proposal, which should be attached to the back of your final paper when you hand it in on October 8. Papers handed in without the original proposals attached will automatically be penalized half a letter grade.

**ACADEMIC HONOR POLICY:** The Florida State University Academic Honor Policy outlines the University's expectations for the integrity of students' academic work, the procedures for resolving alleged violations of those expectations, and the rights and responsibilities of students and faculty members throughout the process. Students are responsible for reading the Academic Honor Policy and for living up to their pledge to ". . . be honest and truthful and . . . [to] strive for personal and institutional integrity at Florida State University." (Florida State University Academic Honor Policy, found at <http://fda.fsu.edu/Academics/Academic-Honor-Policy>.)

**POLICY ON ELECTRONIC DEVICES:** You may not use electronic devices during class or during exams. No phones, computers or any other electronic devices are allowed.

**AMERICANS WITH DISABILITIES ACT:** Students with disabilities needing academic accommodation should: (1) register with and provide documentation to the Student Disability Resource Center; and (2) bring a letter to the instructor indicating the need for accommodation and what type. This should be done during the first week of class. This syllabus and other class materials are available in alternative format upon request. For more information about services available to FSU students with disabilities, contact the:

Student Disability Resource Center  
874 Traditions Way  
108 Student Services Building  
Florida State University  
Tallahassee, FL 32306-4167

**COURSE OUTLINE:** The course will follow the attached outline. Each section of the outline shows the readings you are to do from the book. You are responsible for the material in the reading, even if it is not covered explicitly in class.

-Course Outline-

## History of Economic Ideas

1. The methodology of economics
  - A. Models used as analogies to the real world
    1. Maps as models
    2. Uses and limits of models to understand real economic phenomena
  - B. Economics is the youngest of the sciences (Ludwig von Mises)

Reading: Chapter 1

2. Three centuries, three major issues in the history of economic ideas
  - A. 18th century: How is wealth created?
  - B. 19th century: What determines value?
  - C. 20th century: What are the properties of economic equilibrium?

Reading: Chapter 2

3. Before Adam Smith
  - A. The creation of economic society
  - B. Mercantilists and Thomas Mun (1571-1641)
  - C. Physiocrats and Francois Quesnay (1694-1774)
  - D. Other economists
    1. Richard Cantillon (1680-1734)
    2. Sir William Petty (1623-1687)
    3. John Locke (1632-1704)
    4. David Hume (1711-1776)
    5. Spanish economists (1750-1800)

Reading: Chapter 3

4. Adam Smith (1723-1790)
  - A. *The Wealth of Nations*
  - B. The industrial revolution

Reading: Chapter 4

5. Classical economics I: Thomas Robert Malthus (1766-1834) and David Ricardo (1772-1823)

Reading: Chapter 5

6. Classical economics II
  - A. Jean-Baptiste Say (1776-1832)
  - B. Jeremy Bentham (1748-1832)
  - C. Hermann Heinrich Gossen (1810-1858)
  - D. Henry George (1839-1897)
  - E. John Stuart Mill (1806-1873)

Reading: Chapter 6

7. Utopian Socialism
  - A. Robert Owen (1771-1858)
  - B. Claude Henri de Rouvroy de Saint-Simon (1780-1825)
  - C. Charles Fourier (1772-1837)

8. Karl Marx (1818-1883)

Reading: Chapter 7

9. The Marginal Revolution
  - A. Ends the search for determinants of value; begins the search for properties of equilibrium
  - B. Independent discoveries of marginal analysis
    1. Carl Menger (1840-1921)
    2. William Stanley Jevons (1835-1882)
    3. Leon Walras (1834-1910)

Reading: Chapters 8, 9, 11

10. Alfred Marshall (1842-1924)

Reading: Chapter 10

11. 20th century innovators
  - A. Institutional economics

1. Thorstein Veblen (1857-1929)
  2. Wesley Clair Mitchell (1874-1948)
  3. John R. Commons (1862-1945)
- B. Imperfect competition
1. Edward Chamberlin (1899-1967)
  2. Joan Robinson (1903-1983)
- C. Joseph Schumpeter (1883-1950)
- D. Knut Wicksell (1851-1926)
- E. Philip Wicksteed (1844-1927)
- F. Vilfredo Pareto (1848-1923)
- G. A.C. Pigou (1877-1959)
- H. Irving Fisher (1867-1947)
- J. John R. Hicks (1904-1989)

Reading: Chapter 12

12. John Maynard Keynes (1883-1946)

Reading: Chapter 15

13. The Austrian school

- A. Carl Menger
- B. Friedrich von Wieser (1851-1926)
- C. Eugen von Bohm-Bawerk (1851-1914)
- D. Ludwig von Mises (1881-1973)
- E. Friedrich Hayek (1899-1992)
- F. Murray Rothbard (1926-1995)
- G. Israel Kirzner (1930-)

Reading: Chapter 13

14. Planning versus markets

- A. The Chicago school and monetarism  
Milton Friedman (1912-2006)
- B. The development of mathematical welfare economics  
Paul Samuelson (1915-2009)

Reading: Chapter 14

15. The methodology of modern economics

- A. Economic man: Politics and Economics
- B. Mathematical modeling
- C. Econometrics
  1. Methodological positivism
  2. National income accounting
- D. Emphasis on characteristics of equilibrium

Reading: Chapters 16-17
